

Site Audit: Overview

arunpandian.online

- The overall technical health score of your website is currently at 75%, which indicates there is room for improvement to ensure a smoother experience for your visitors.
- Out of the 5 total pages found and scanned on your website, 3 pages are completely broken and cannot be loaded by visitors, 1 page has other technical issues, and 1 page is redirecting visitors to another web address.
- There are 0 healthy pages detected on the website, meaning every single page found currently has some form of technical issue or redirection.
- Your website scores 89% for compatibility with artificial intelligence search tools, and currently, no pages are blocked from being read by major artificial intelligence systems like ChatGPT, Google, Perplexity, or Claude.
- The audit found 3 major errors on your website, which include 2 pages that are completely broken and return error codes when accessed, and 1 security setup issue regarding an incorrect certificate name.
- There are 6 minor warnings detected on the website, which include 1 page missing a brief summary description for search results, 1 page missing a main title heading, and 1 technical security setup issue where a subdomain does not support a standard security protocol.
- Based on the limited data available from this small 5-page scan, these are the initial observations. A more detailed analysis will be possible as more data accumulates over time.
